NAME

ares_free_hostent - Free host structure allocated by ares functions

SYNOPSIS

#include <ares.h>

void ares_free_hostent(struct hostent *host)

DESCRIPTION

The *ares_free_hostent* function frees a **struct hostent** allocated by one of the functions $ares_parse_a_reply(3)$, $ares_parse_aaaa_reply(3)$, or $ares_parse_ptr_reply(3)$.

NOTES

It is not necessary (and is not correct) to free the host structure passed to the callback functions for $ares_gethostbyname(3)$ or $ares_gethostbyaddr(3)$. c-ares will automatically free such host structures when the callback returns.

SEE ALSO

ares_parse_a_reply(3), ares_parse_aaaa_reply(3), ares_parse_ptr_reply(3), ares_parse_ns_reply(3)
